Createspace, United States, 2011. Paperback. Book Condition: New. 274 x 212 mm. Language: English . Brand New Book ***** Print on Demand *****.This work has been a labor of love. It is meant to compliment and broaden the working knowledge of the modern automotive technician. No theoretical information is given, except under certain explanatory circumstances and sections. This book is totally based on actual working conditions and real life diagnostics. With that intent, special thanks are given to Mr. Gino Ferrulli for his incredible patience and understanding. This book, including waveform captures and photographs would have been impossible to acquire and assemble without his help. My gratitude to him and his family for putting up with me throughout the almost three years that took to make the book. Special thanks are also given to Ms. Maria Ferrulli and Ms. Caroline Torres for their invaluable help in amending and correcting the information contained here. I couldn t have done it without their help. And last, but not least, thanks to my family for their support and encouragement. I really needed it at times. The family is the basis for all societies. But most of all, this book was done for you, The Lone Automotive Mechanic or Technician. The guy (or girl in some cases) who works all day long and studies at night to further his/her career in spite of the stress of the day, the guy who s not appreciated for what he does because to the rest of the world he s the dirty mechanic that doesn t know better, the guy who spends thousands of dollars in tools and equipment but that nobody has any idea that he did, and the guy who in spite of all the drawbacks of our profession is happy at what he does...
