

Finite and Infinite Games

Filesize: 2.58 MB

Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Michael Spinka)

FINITE AND INFINITE GAMES

To read **Finite and Infinite Games** PDF, remember to follow the web link beneath and save the ebook or have access to other information that are in conjunction with FINITE AND INFINITE GAMES ebook.

Simon & Schuster. Paperback. Book Condition: new. BRAND NEW, Finite and Infinite Games, James Carse, "There are at least two kinds of games," states James P. Carse as he begins this extraordinary book. "One could be called finite; the other infinite." Finite games are the familiar contests of everyday life; they are played in order to be won, which is when they end. But infinite games are more mysterious. Their object is not winning, but ensuring the continuation of play. The rules may change, the boundaries may change, even the participants may change-as long as the game is never allowed to come to an end. What are infinite games? How do they affect the ways we play our finite games? What are we doing when we play-finitely or infinitely? And how can infinite games affect the ways in which we live our lives? Carse explores these questions with stunning elegance, teasing out of his distinctions a universe of observation and insight, noting where and why and how we play, finitely and infinitely. He surveys our world-from the finite games of the playing field and playing board to the infinite games found in culture and religion-leaving all we think we know illuminated and transformed. Along the way, Carse finds new ways of understanding everything, from how an actress portrays a role to how we engage in sex, from the nature of evil to the nature of science. Finite games, he shows, may offer wealth and status, power and glory, but infinite games offer something far more subtle and far grander. Carse has written a book rich in insight and aphorism. Already an international literary event, Finite and Infinite Games is certain to be argued about and celebrated for years to come. Reading it is the first step in learning to play...
